Index to Subject Matter

Abstracts:
acute esophageal obstruction: endoscopic management of foreign body or food bolus impaction 30
^{47}Ca absorption in patients taking chronic anticonvulsant therapy 30
cardiomyopathy in diabetes mellitus 33
cimetidine use in upper GI hemorrhage 31
coarctation of the aorta and asymmetric septal hypertrophy in an adult patient, simultaneous occurrence of 33
concurrent oral disopyramide and propranolol: the effect on cardiac function in healthy men 31
congestive heart failure in alcoholic cardiomyopathy, recurrent pattern of 33
constrictive pericarditis following acute idiopathic pericarditis 32
coronary artery bypass, a comparison of complete vs unsuccessful 33
coronary bypass surgery, does postoperative arteriography predict the late course following? 34
Cushing's disease with periodic hormonogenesis: a case report and brief review 30
diabetic honeymoon state after ketoacidosis in an adult 29
ganglioneuroma: unusual tumor presenting with headaches 37
gastroesophageal reflux, the relationship of, to reversible airways disease 38
glomerulonephritis, rapidly progressive: a favorable response to pulse corticosteroid therapy 36
Goodpasture's syndrome responding to combination plasmapheresis and immunosuppressive therapy 29
granulocytopenia in a patient with myelofibrosis, lithium carbonate therapy for 34
granulocytopenia, nafcillin-associated 34
heart surgery in Topeka 33
hypothalamic syndromes produced by cerebral subarachnoid cyst 37
intercellular infection in a patient with thymoma, fatal disseminated ... 35
jejunoileal bypass, severe hyperchloremic acidosis complicating 36
Kawasaki disease — five cases in young adults 35
life threatening lactic acidosis in status epilepticus 30
mosaic Turner's syndrome with menstruation and good ovarian function 31
neuroblastoma, pheochromocytoma, and renal cell carcinoma occurring in a single patient 29
oligohypopituitarism and the empty sella syndrome 29
percutaneous transhepatic cholangiography: experience in a community hospital 31
pericardial tamponade in a patient with multiple myoma, development of 32
pericardiocentesis: echocardiographic findings predicting the success of 32
primary ulceration of the ileum presenting as massive gastrointestinal hemorrhage 31
pseudomycosis caused by fungal contaminant in histological stain 35
pulmonary hypertension associated with systemic lupus erythematosus and mixed connective tissue disease: a report of two cases 38
radiation pericarditis — late onset 32
refractory heart failure, a new hemodialysis technique for treatment of 36
renal failure secondary to diffuse neoplastic involvement of the kidneys 36
renal function in the sexually mature vs sexually immature rabbit, the effects of gentamicin (G) on 37
rocky mountain spotted fever 35
sclerosis, carcinomatous amyotrophic lateral, in a patient with multiple myeloma 37
seizures in a dialysis patient, pyridoxine controlled 37
severe myositis during simultaneous infection with β-hemolytic streptococcus and a viral agent 35
treadmill stress testing, changes in R wave amplitude with 34
tuberous sclerosis: a case report with simultaneous respiratory and renal failure 38
ventricular dysfunction: left ventricular function and late mortality following coronary artery bypass in patients with severe left 32
Allergy and immunology:
Goodpasture's syndrome responding to combination plasmapheresis and immunosuppressive therapy 29
American College of Surgeons issue:
abdominal aortic aneurysms: management and avoidance of pitfalls in community hospital 238
antibiotics in surgery: current concepts in cepha usage 223
hyperparathyroidism: clinical manifestations of perathyroid adenomas 243
peritoneovenous shunt: early renal failure 245
philosophy of a neurosurgeon, the 252
splenectomy for trauma: a community hospital experience 231
sunscreens 248
traumatic lipomata: fractured fat 227
wound closure: the use of musculocutaneous flaps 234
American Medical Association:
actions of the House of Delegates 49, 479
Blood and lymphatics system:
anemia, evaluation of 294
aplastic anemia: the role of bone marrow transplantation 137
chronic lymphocytic leukemia and related lymphoproliferative disorders 25
deep vein thrombosis, temporary resistance to heparin and warfarin in treatment of 468
glomerulonephritis, rapidly progressive: a favorable response to pulse corticosteroid therapy 36
Goodpasture's syndrome responding to combination plasmapheresis and immunosuppressive therapy 29
granulocytopenia in a patient with myelofibrosis, lithium carbonate therapy for 34
granulocytopenia, nafcillin-associated 34
iron overload 348
procainamide-induced agranulocytosis: report of two cases 18
thrombolytic therapy: an introduction and review 292
Cardiovascular system:
abdominal aortic aneurysms: management and avoidance of pitfalls in community hospitals 238
cardiomyopathy in diabetes mellitus 33
coarctation of the aorta and asymmetric septal hypertrophy in an adult patient, simultaneous occurrence of 33
concurrent oral disopyramide and propranolol: the effect on cardiac function in healthy men 31
congestive heart failure in alcoholic cardiomyopathy, recurrent pattern of 33
congestive heart failure, new therapies in the management of 83
constrictive pericarditis following acute idiopathic pericarditis 32
coronary artery bypass, a comparison of complete vs unsuccessful 33
coronary artery disease, bypass for three vessel 337
coronary bypass surgery, does postoperative arteriography predict the late course following? 34
deep vein thrombosis, temporary resistance to heparin and warfarin in treatment of 468
digoxin overdosage, acute: potential role of colestipol therapy 464
fetal cardiac arrhythmias: interpretation of fetal heart irregularities 118
heart surgery in Topeka 33
hemospermia and hypertension: two case reports 459
pericardial tamponade in a patient with multiple myeloma, development of 32
pericardiocentesis: echocardiographic findings predicting the success of 32
peritoneovenous shunt: early renal failure 245
pulmonary hypertension associated with systemic lupus erythematosus and mixed connective tissue disease: a report of two cases 38
radiation pericarditis — late onset 32
refractory heart failure, a new hemodialysis technique for treatment of 36
tetralogy of Fallot: cases with absent pulmonary valve 400
thrombolytic therapy: an introduction and review 292
treadmill stress testing, changes in R wave amplitude with 34
ventricular dysfunction: left ventricular function and late mortality following coronary artery bypass in patients with severe left 32
Case reports:
bilateral external ophthalmoplegia 457
deep vein thrombosis, temporary resistance to heparin and warfarin in treatment of 468
digoxin overdosage, acute: potential role of colestipol therapy 464
